## WE WANT YOU!

### Discover Your Place in the Pacesetter Family

At Pacesetter, we're more than a team; we're a family. Our secret to unparalleled retention? A culture that celebrates mutual respect, support, and the pursuit of excellence. With over half of our associates marking a decade with us, it's clear: once you join, you're home.

We thrive on the energy of the "best of the best" – individuals passionate about leadership, innovation, and making every day count. We're committed to excellence in every task, always seeking smarter, more effective ways to work and adapt, no matter the role.

We're looking for motivated talents ready to embrace the Pacesetter Experience. Here, hard work is met with real rewards, in an environment that feels like an extended family. Our mission transcends supplying steel; we're committed to delivering unparalleled customer experiences and enhancing our partners' success, powered by our exceptional team.

Join us at Pacesetter, where you're not just valued for the work you do, but for who you are.

## PRIMARY ROLE

This role will be responsible for supporting current systems and processes as well as developing, researching, designing, implementing, testing, and evaluating software and systems that enable software applications to perform, while applying principles and techniques of computer science, engineering, and mathematical analysis.

## KEY RESPONSIBILITIES

- Model the Pacesetter Way in daily job activities.
- Develop IT solutions to improve corporate efficiencies.
- Identify potential gaps with corresponding solutions to benefit Pacesetter.
- Follow provided requirements to develop error free systems to specification.
- Support Pacesetter associates by resolving technical issues when reported.
- Send weekly status update to manager on project(s).
- Review ticketing systems to pick up trouble tickets and assigned tasks.
- Support and maintain current production software.

## WHAT WE OFFER

### A Tradition of Stability in a World of Change

As the world races towards an era defined by automation and artificial intelligence, the steel industry remains indispensable. With 46 years of excellence, Pacesetter stands at the forefront of this vital sector, marrying the time-honored craft of steel production with the latest breakthroughs in technology.

While some jobs may face obsolescence in the face of robotics and AI, careers in steel offer a unique blend of stability and forward-thinking innovation. Discover how at Pacesetter, tradition and innovation forge the strongest link.
